-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1755

This action is in response to applicant's amendment of 19 January 2005. The drawings were received on 19 January 2005. These drawings are acceptable. The amendment to the claims has overcome the art rejection over claims 1-25.

Claims 26-30, 34 and 36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 28-30, 34 and 26 are indefinite since it is unclear what is meant by "mainly". This confusion exists since claim 10 teaches M is at least 50 at% Ba and claim 28 teaches M is mainly Ba. The conventional meaning of "mainly" is greater than 50 at%, but since claim 10 already teaches this, it is unclear what values applicant considers as "mainly". Claims 26 and 27 are indefinite since the scope of these claims is greater than claim 10 from which they depend. Claim 27 teaches the weight ratio of formulas I and II is 1:99 to 99:1, while claim 10 teaches the molar ratio of formulas I and II is 0.3 to less than 100. When the taught weight ratio is converted to molar ratio, the range is outside that of claim 10. Claim 26 is indefinite since it does not contain the M limitation set forth in claim 10.

Claims 10, 13-19, 24, 25, 33, 35 and 37 are allowable over the cited art of record.

Claims 26-30, 34 and 36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 31 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1755

There is no teaching or suggestion in the cited art of an oxide having the claimed formula where M is at least 50 at% Ba. There is no teaching or suggestion in the cited art of an oxide having the claimed formula and a crystal structure selected from a hexagonal or perovskite structure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
